FCC Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

General View

The general view and external features of ECTACO® Partner® EGP530T are shown below.

Power Supply

The device is powered by two AAA (LR03) batteries.

How to Replace the Batteries

- Ensure the power is off. Press *ON/OFF* to turn the device off.
- ✓ Never try to remove batteries from the device when the power is on. This can seriously damage the device. If you experience difficulty turning the device off, press the *Reset* button on the left-hand side of the keyboard (under the *A* key) and reset the system.
- Remove the battery compartment cover by sliding it away from the device.
- Remove the used batteries and replace them with new ones. Do not mix old and new batteries.
- ✓ When replacing the batteries, you have one minute to place new ones in the device without risk of losing any data stored in RAM. **Do not exceed the one-minute limit!** Neither the manufacturer nor the dealer may be held responsible for loss of user data.
- Make sure to place the batteries according to the polarity marks (+ -) inside the compartment.
- Replace the battery compartment cover by sliding it toward the device. Make sure the cover sits in place properly.

ECTACO® Partner® EGP530T is equipped with a mini-USB port for external power supply via the shielded cable.

- ✓ Use of an inappropriate external power supply may cause failure of the device and may void the warranty. Always use the original accessories manufactured by ECTACO, Inc.

Initialization

The initialization routine is started:

- when ECTACO® Partner® EGP530T is turned on for the first time;
 - after the system has been reset with the *Reset* button.
- ✓ The *Reset* button is located on the left-hand side of the keyboard (under the *A* key). It can be accessed with any thin object like a paper clip. Never use a needle or pin for this purpose since it can damage the device.

Electrostatic discharge may cause failure of the device. Please use the *Reset* button to restore full functionality of the device.

- If you see the *Initialize system? (y/n)* message, press the *N* key to abort initialization and customization.
- ✓ The *System initialized!* message indicates that system initialization has been completed and the factory defined default settings have been restored.

Keyboard

The American standard QWERTY keyboard (combined with the German and Polish layouts) allows you to enter any word just in seconds.

- Enter the desired symbol from the keyboard by pressing the corresponding key.
- ✓ Unlike PC keyboards, there is no need to keep a key (such as SHIFT) down while pressing another one. It is enough to press it only once and release.

The available set of national characters is dependent on the selected keyboard layout.
